

UAV Pilot Career Opportunity – EXCELLENT COMPENSATION

Pittsburgh based Identified Technologies is the fastest growing drone company on the east coast and is seeking talented, part-time pilots to join our team. Successful candidates will be enthusiastic, able to work independently as well as part of a team, and have strong initiative and communications skills. We offer a flexible schedule and welcome aviation students.

Identified Technologies is putting an end to late and over budget construction projects, by giving managers continuous job site visibility to empower fast, informed decisions. Inc., TechCrunch, NBC, CNN UAS Magazine, Next PGH, and the PGH Tech Council have featured the company for their precision 3-D project maps captured 200x faster than leading alternatives. We hope you'll be a part of our fun, fast growing startup team.

Responsibilities

- Fly UAV's under 55 pounds at assigned customer job sites
