

Senior Software Engineer

Pittsburgh based Identified Technologies is the fastest growing drone mapping and analytics company on the east coast and we're hoping you'll join our expanding team. [Inc. TechCrunch](#), [NBC](#), and [CNN](#) have recognized us for transforming job site management. Our integrated drone mapping solution takes care of everything from FAA compliance and flight planning, to advanced data analysis and insights. You push the start button on the drone and we take care of the rest.

Responsibilities & Values:

Our cross-functional product development team works closely together to provide our customers with valuable insight into their operations. We are looking for a Senior Software Engineer who:

- Has a passion for building software technologies as well as developing teams and people
- Loves crafting team vision and culture
- Leverages technology to solve challenging problems
- Enjoys participating in the entire software lifecycle
- Focuses on delighting customers and is driven by their success

Experience & Qualifications:

We understand that not all experience will directly match our present tech stack. If you are a good fit and have a strong desire to learn, we'd still love to talk to you!

- Leadership of teams, with contributions from recruitment to management
- Software generalist with full stack web application experience
- Server-side frameworks and tools: NodeJS, SailsJS, and Python
- Front-end frameworks and tools: EmberJS, ReactJS, Bootstrap, and SCSS
- Mobile application development: Android and Java
- Relational databases: PostgreSQL
- Platforms and tools: AWS, Linux, and Docker

About the Company:

We help companies in construction and earth moving save time, money, and lives with 3D job site data and analytics. We have raised over \$4M in Venture Capital and are deployed on over 600 construction sites around the country. Do you have relevant professional experience and a passion for what we're creating? We hope you'll join our fun, fast growing startup team as we take flight!

Applications/Questions? Please e-mail your resume and any representative work you'd like to highlight (e.g., GitHub, LinkedIn, projects, talks, etc.) to careers@IdentifiedTech.com with the subject line "Senior Software Engineer - Lastname, Firstname". Learn more @ IdentifiedTech.com
